1) Distance with forks raised to centre of first boggie wheel.

2) Boggie wheel.

All data are based on table configuration. Other configurations may give other values.

Truck performance and dimensions are nominal and subject to tolerances.

Specifications are subject to change without notice.

Truck features:

- Designed for load carriers with very low pallet tunnel.
- Quick Lift function is standard.
- Customized configurations – a part of our offer.
- Robust design and still low weight – easy to manoeuvre.
- Powder coating for durable finish.
- Angled high strength polymer handle for best ergonomic grip.
- BT lowering control valve enables smooth, controlled lowering action.
- Strong powerful thrust bearing is standard, for easier steering and enhanced durability
- Greasable bushings ensure long service life.
- Quick lift and overload valve are combined.
