## Truck features:

- BT Lifter H-series allow ergonomic handling of goods. The ergonomical working height, fully adjustable, is ideal for distribution, sorting operations or in a production environment.
- Maximum lift capacity 1000 kg , maximum lift height 800 mm . Short truck length provides narrow turning radius.
- Angled fork tips provide easy pallet entry and safe handling.
- Supporting clamps in front of the rollers reduce the risk of tipping forward.
- Stabilizers to ensure safety and stability in operation.
- Battery indicator as standard.
- Quicklift-function as standard. Including BT Lowering Control (BLC) for smooth handling.
- HHM100I and HHL100I are inox alternative of this truck.
- Photocell version available for efficient load handling, providing automatic lift/ lowering.
- Robust design, optimized truck weight, well proven components, and produced to Toyota Production System principles
- This product has been environmentally declared.
